

Advocating for people with type 1 diabetes around the world

To: Paul Hudson, CEO of Sanofi; Lars Fruergaard Jørgensen President and CEO of Novo Nordisk; and David Ricks, CEO of Eli Lilly

We believe that everyone with diabetes, no matter where they live, has everything they need to survive and achieve their dreams. No one should have to spend more than 5% of their income on essential insulin and glucose testing supplies. **You can make it right.**

Countries need to have access to affordable insulin to be able to provide it to their people with diabetes. That's why we're calling on all insulin manufacturers to make all of their insulins that are on the WHO's Essential Medicines List available for government contract for \$5 or less for a box of pens in low and middle income countries.

Paul Hudson, CEO of Sanofi; Lars Fruergaard Jørgensen President and CEO of Novo Nordisk; and David Ricks, CEO of Eli Lilly—please **make it right and commit to making lower priced insulin affordable for countries by 2025.**
